

**Kids are making 5000\$+**  
per month by creating AI  
chatbots for clients. Here  
is how you can make an  
**AI chatbot in less than 5**  
**mins:**

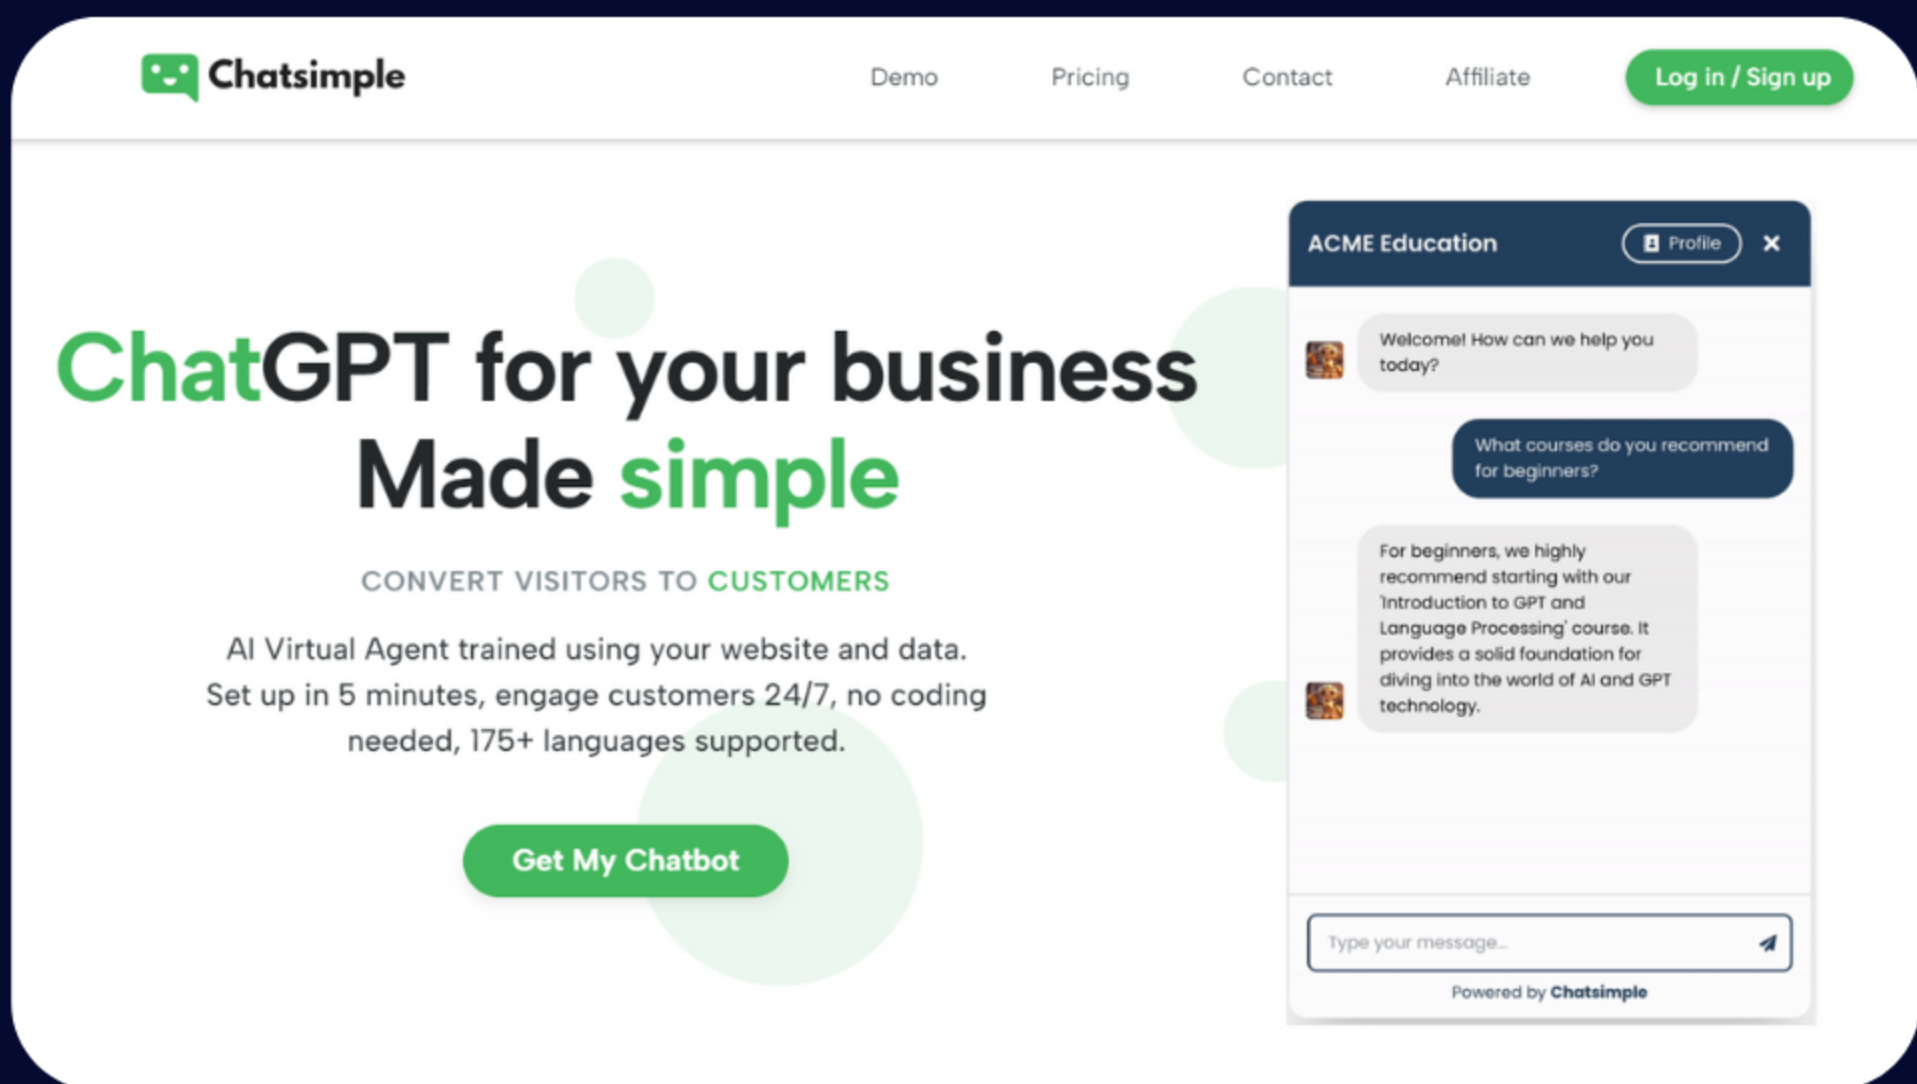

Introducing **ChatSimple**  
**chatgpt** powered chatbot  
that will transform visitors  
into **satisfied customers**

Here is how you can **set up**  
a **chatbot** within 5 minutes

First of all visit [chatsimple.ai](https://chatsimple.ai)  
**Sign up** for a free account.

The screenshot displays the Chatsimple website interface. At the top, the navigation bar includes the Chatsimple logo, links for Demo, Pricing, Contact, and Affiliate, and a green button for Log in / Sign up. The main content area features the headline "ChatGPT for your business Made simple" in green and black text, followed by the subtext "CONVERT VISITORS TO CUSTOMERS". Below this, a paragraph describes the AI Virtual Agent capabilities: "AI Virtual Agent trained using your website and data. Set up in 5 minutes, engage customers 24/7, no coding needed, 175+ languages supported." A green button labeled "Get My Chatbot" is positioned below the text. To the right, a chatbot interface for "ACME Education" is shown, featuring a profile icon, a welcome message, a user query about beginner courses, and a response recommending an "Introduction to GPT and Language Processing" course. The chatbot interface also includes a text input field and a "Powered by Chatsimple" footer.

Muhammad Ayan

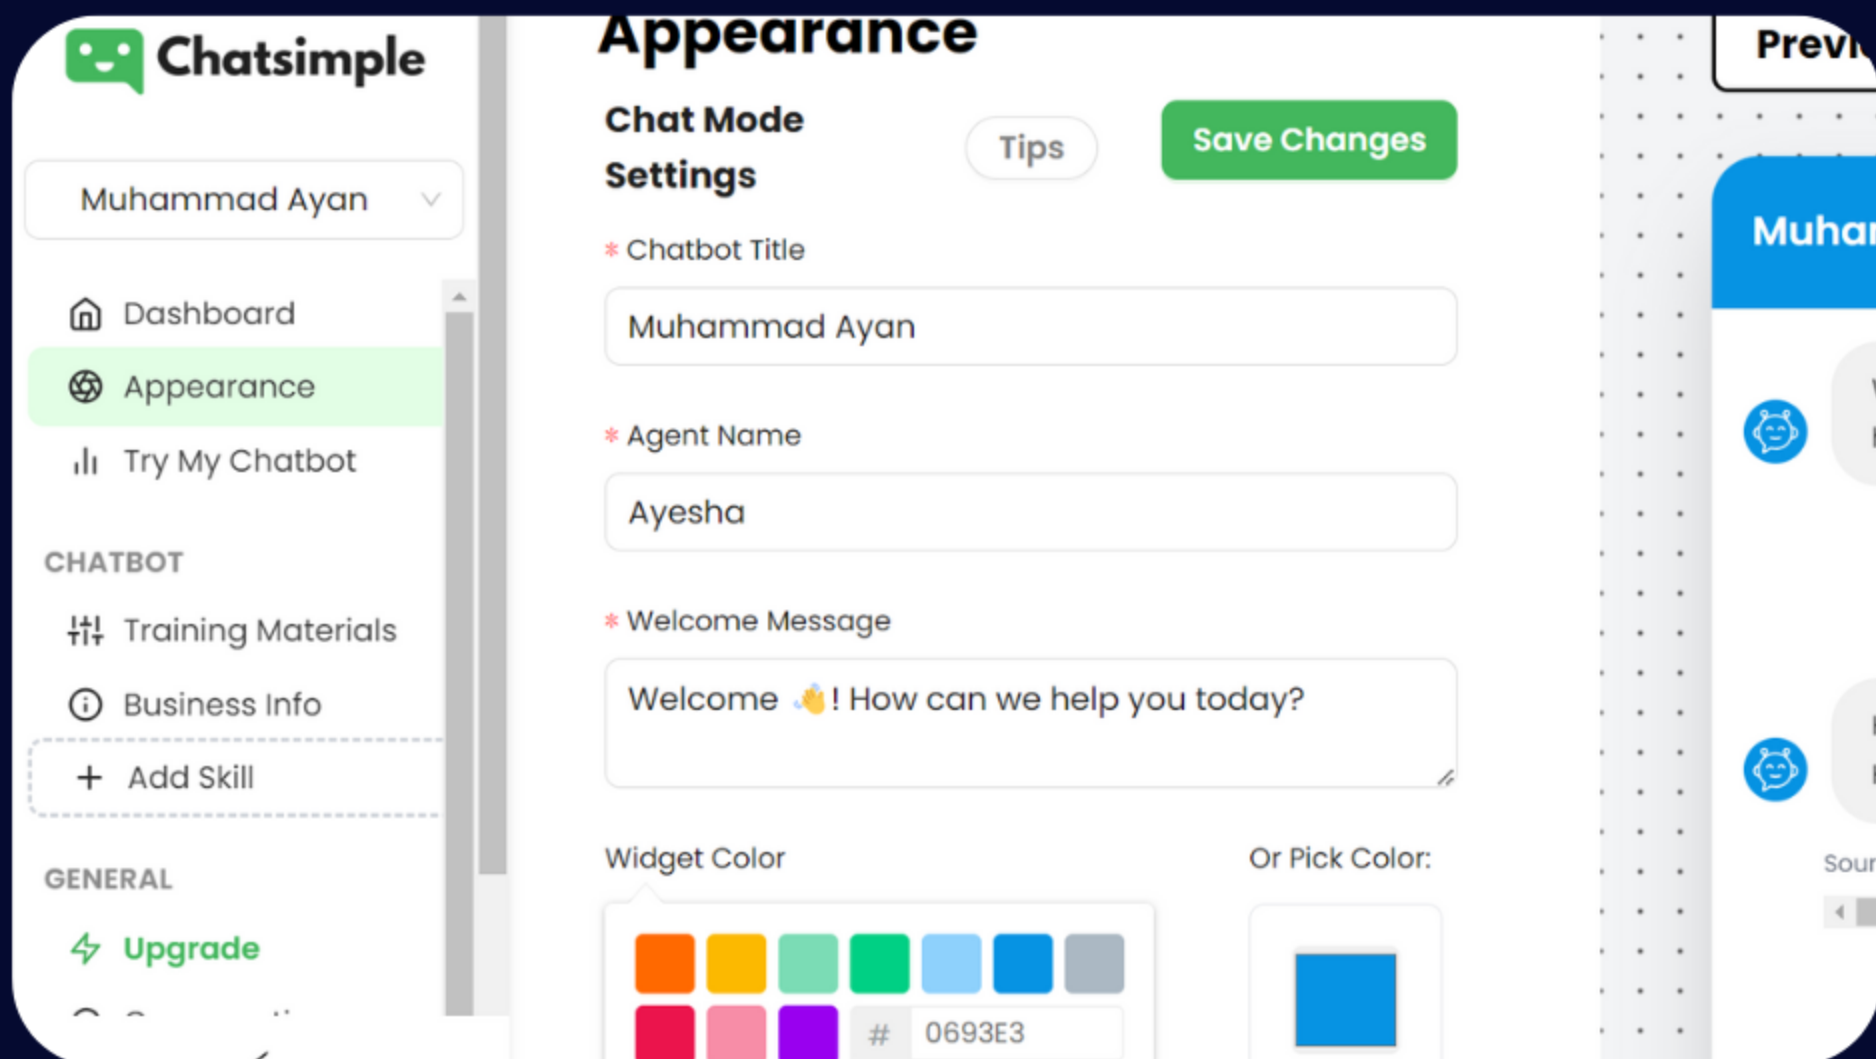

Welcome to Ayan's Chatbot. I'll help you to create a chatbot.

Hi there! My name is Ayesha. How can I help you?

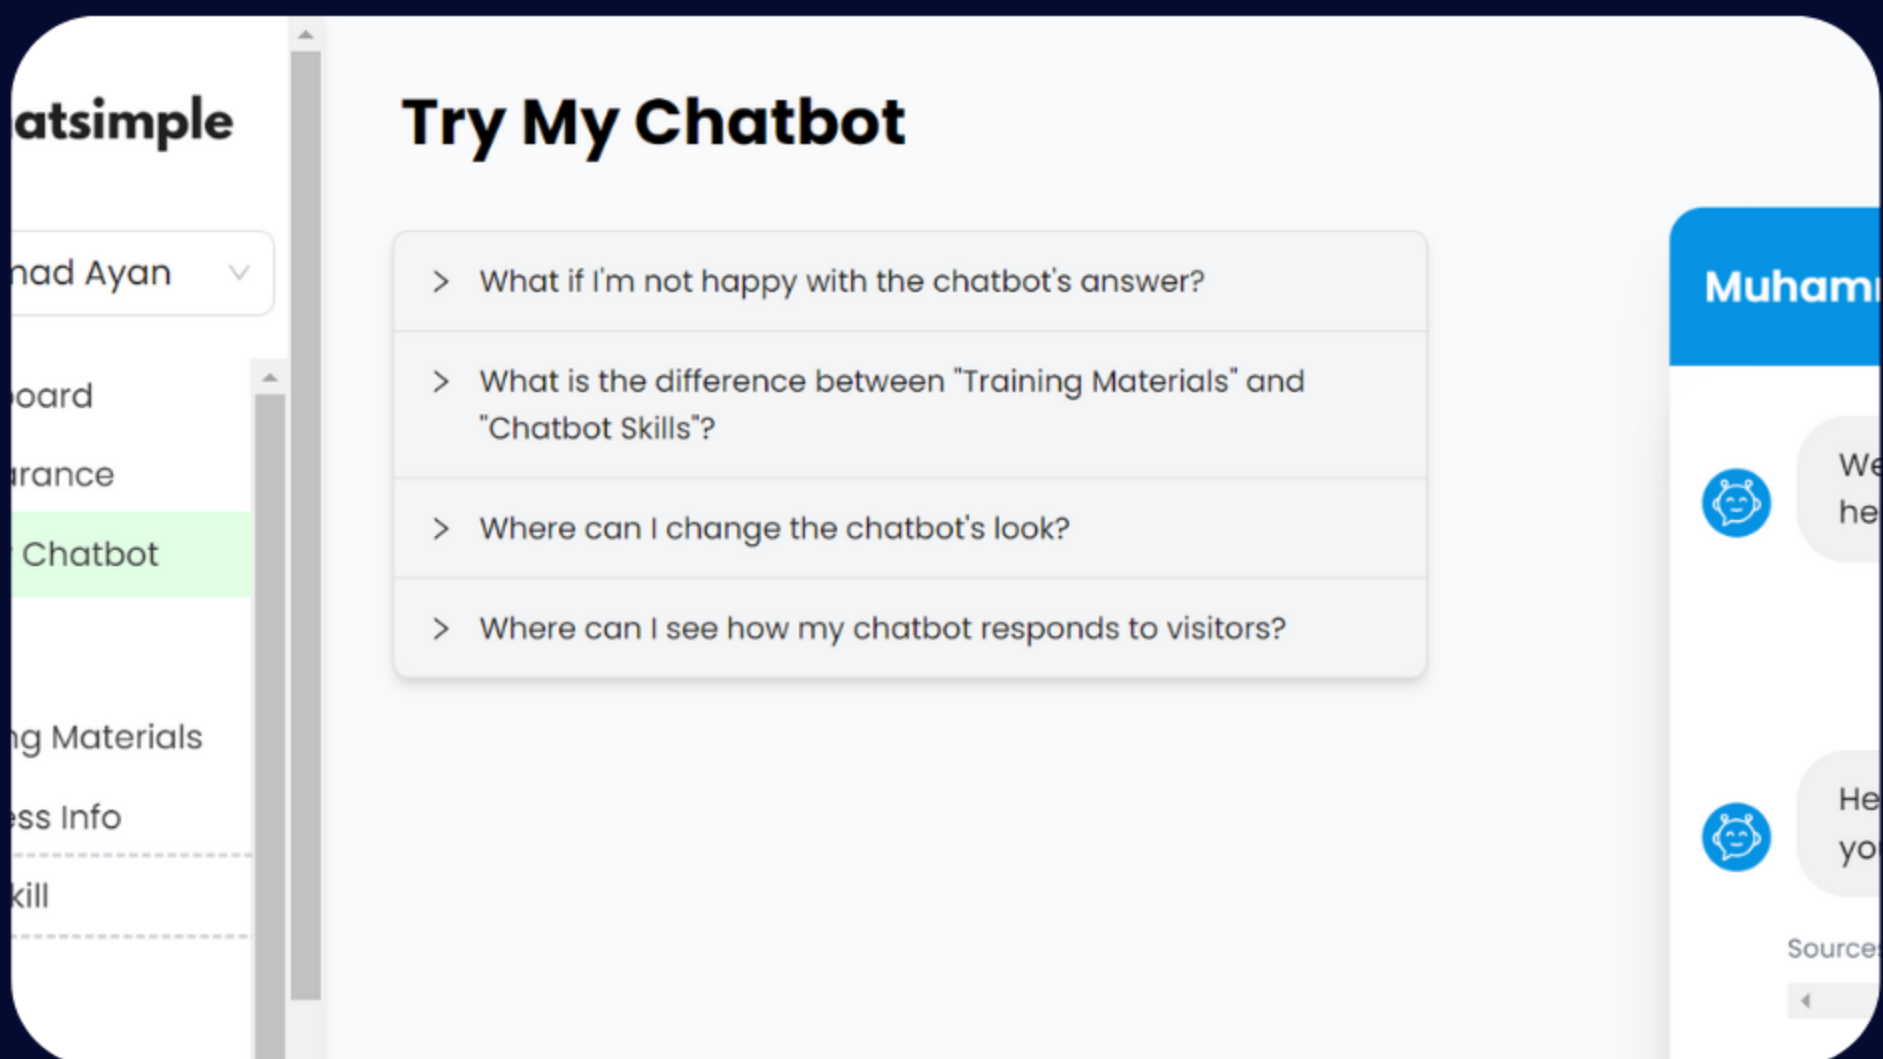

# Personalize your Chatbot

Define your specific outcomes, align with your mission, guide your customers & drive leads

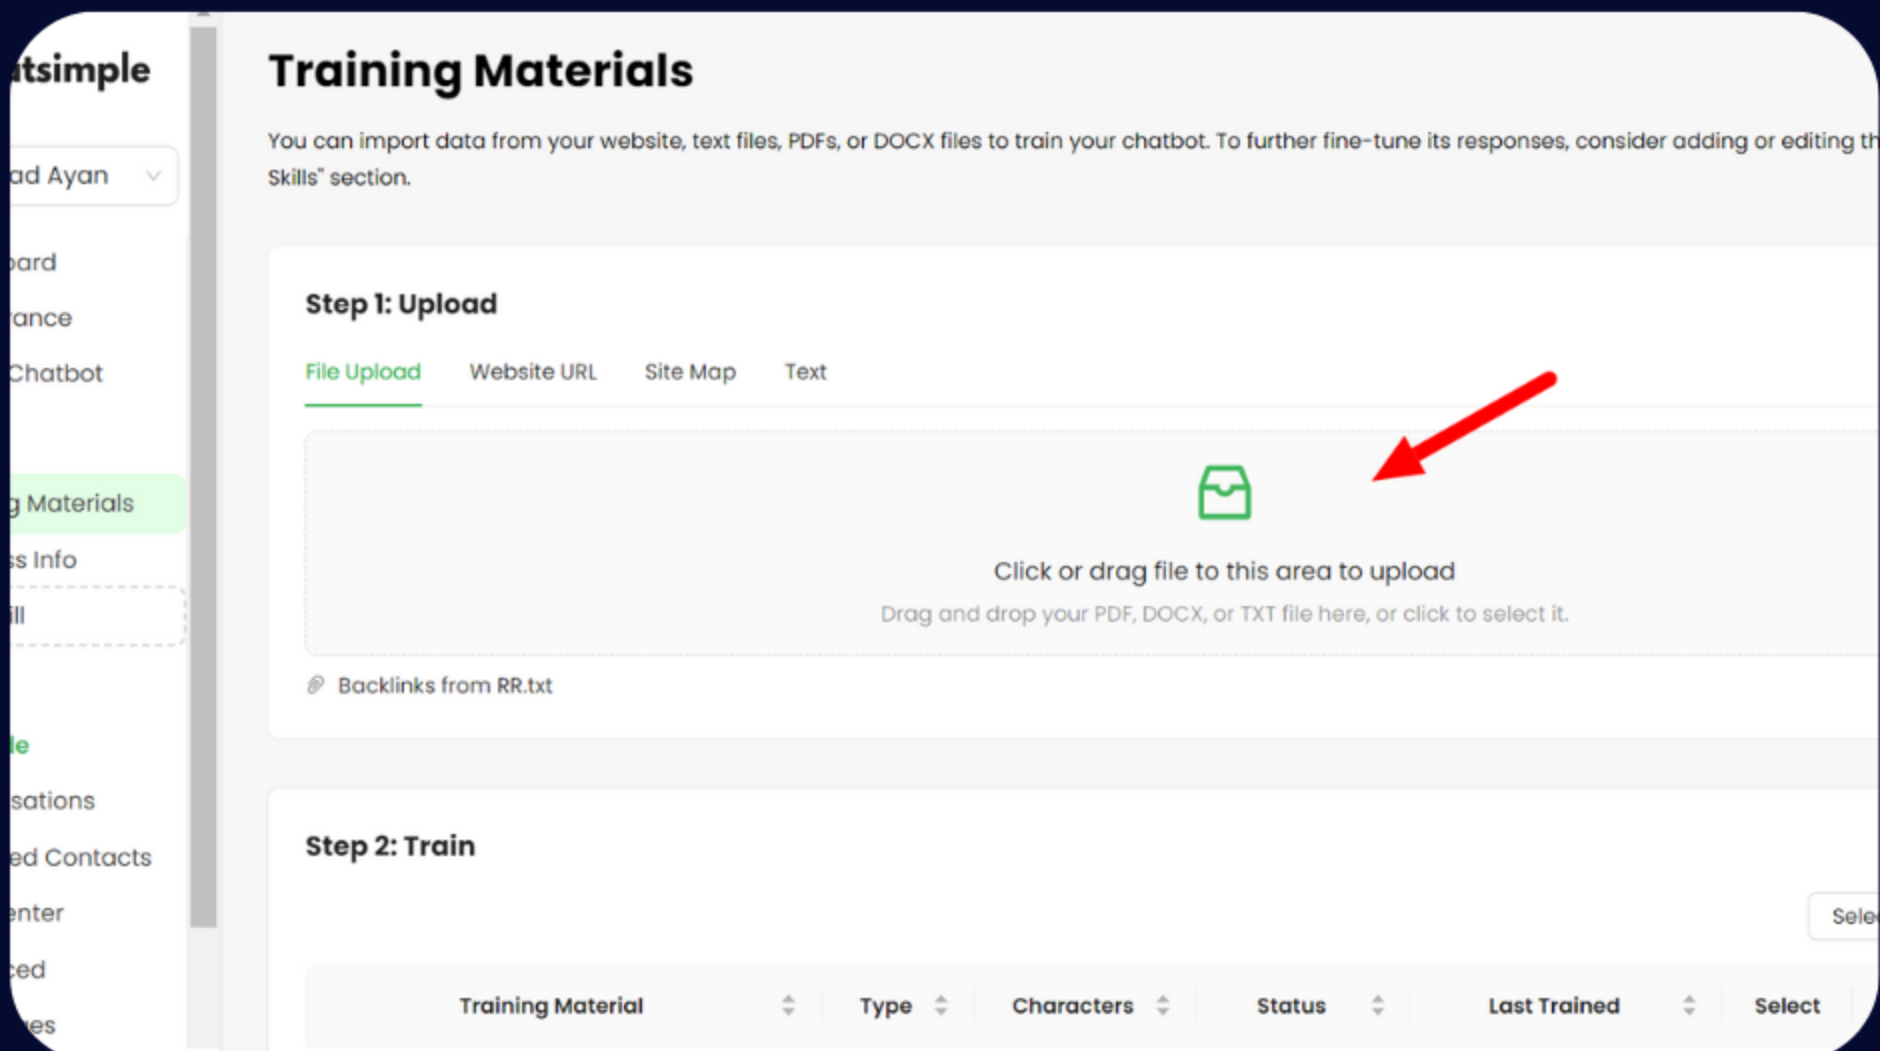

# Customize your chatbot

Upload images, create calls to action, add social links & transform your chatbot

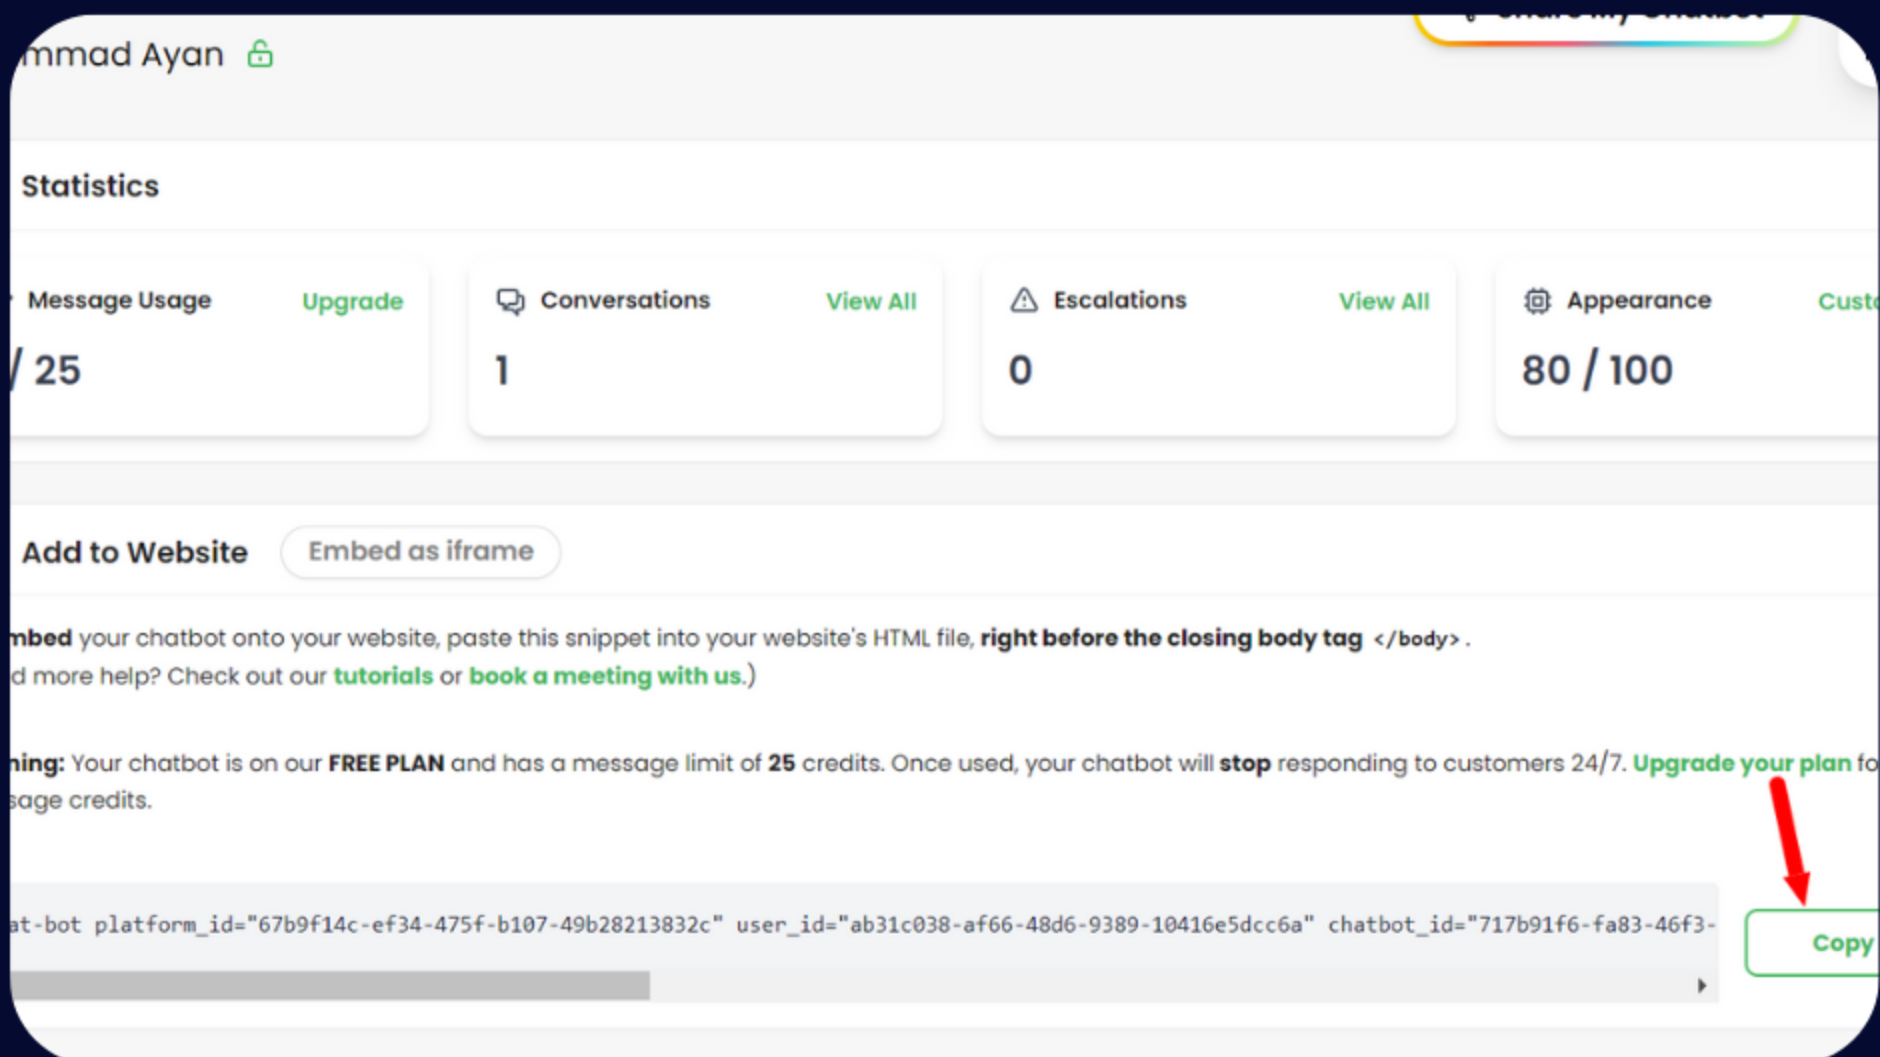

**Incorporate data** into your chatbot from your website, text files, **PDFs, or DOCX files** for training purposes. For more refined responses, contemplate adding or editing the content.

After **training your chatbot** copy the code and place it into your website right before closing the **body section** & with in **5 min** your bot is ready to use

The screenshot shows a chatbot dashboard interface. At the top, the user's name 'mmad Ayan' is displayed. Below this is a 'Statistics' section with four cards: 'Message Usage' (25 / 25), 'Conversations' (1), 'Escalations' (0), and 'Appearance' (80 / 100). Each card has an 'Upgrade' or 'View All' link. Below the statistics is an 'Add to Website' section with a button labeled 'Embed as iframe'. The text below this button instructs the user to paste a snippet into their website's HTML file, right before the closing body tag. A red arrow points to a 'Copy' button at the bottom right of the snippet area. The snippet itself is a long string of alphanumeric characters.

mmad Ayan

Statistics

Message Usage / 25 Upgrade

Conversations 1 View All

Escalations 0 View All

Appearance 80 / 100 Upgrade

Add to Website Embed as iframe

Embed your chatbot onto your website, paste this snippet into your website's HTML file, **right before the closing body tag** `</body>` .
