Artificial intelligence isn't just for corporations and the mega-wealthy.

There are actually hundreds of AI tools that are affordable or free.

Here are 44 that'll help you write better, sell more, and be more productive:

Quick note:

I don't want to tell you things you already know in this thread.

So, I won't mention tools like Google Search and Siri, which use AI but are well-known.

Instead, I'll try to give you some new ones.

Let's get started...

Writing Tools:

1. Jasper
2. Scalenut
3. Rytr
4. CopyAI
5. Article Forge
6. AI Writer
7. Copysmith
8. WriteSonic
9. Peppertype

AI writing tools are starting to get really good due to Natural Language process advancements.

Several options that can fit your needs.

Editing Tools:

10. ProWritingAid

11. Quillbot

12. Grammarly

13. Wordtune

14. TextBlaze

15. Hemingway

Once you're done writing (or once your AI tool is done writing), use one or two of these to make things cleaner.

Grammarly is my go to!

Design Tools:

16. Beautiful(dot)ai

17. Design Beast

18. Adobe Spark

19. Design Evo

20. Removal(dot)ai

If you're not talented at design and want to skip hiring a human designer, try these.

I have played around with Adobe Spark and found it easy and useful.

Marketing Tools:

21. SurferSEO
22. Sapling
23. Growbots
24. On-Page(dot)ai
25. ManyChat
26. Crayon
27. Gong

These will help you increase profits
and decrease time wasted.

I am personally a big fan of Gong.

Time Management Tools:

28. Tara

29. Futurenda

30. Timely

31. Trevor

32. Asta

33. Time Doctor

Whether you're working alone or in a team, AI can help you use your time better.

Audio & Video Tools:

- 34. Podcastle
- 35. Fireflies(dot)ai
- 36. Otter(dot)ai
- 37. FlexClip
- 38. Synthesia
- 39. Toonly
- 40. Voicemaker

If you're looking to get into audio and video for an affordable price, use these.

Miscellaneous Tools:

- 41. Bitdefender (antivirus)
- 42. Brain(dot)fm (focus music)
- 43. Genei (research and summarization)
- 44. DeepL (translation)

These didn't fit into a perfect category, but they're useful, so I thought I'd include them anyway.

There are a lot of options on this list, but I thought giving you a bunch of ideas was more useful than me choosing for you.

Pick the categories that resonate with you most, research the tools in them, and start leveraging the power of AI.

Thanks for reading!
